Boston, Mass. — Apr. 30, 2007 — MerlinWave exhibited MWTherapy highly successfully on April 28th, 2007. On April 28 the APTA in conjunction with Northeast Seminars held a Mulligan Concept Conference in Boston, MA. Over 110 people were in attendance to hear Brian Mulligan teach the technique he invented and pioneered.

MWTherapy had a vendor booth and connected with most of the participants. "Any event where we speak directly to clients and potential clients are the best types of events. It gives us the golden opportunity to speak in-person with clients, which is literally priceless." MerlinWave also announced that Mulligan participants can qualify for special promotions and invites participants to contact MerlinWave directly for details.

About MWTherapy:

MWTherapy is a customizable documentation system with supporting functions including: scheduling, clinical communication, charge capture, and clinical management. The system takes customization to the next level by allowing clients to have their preprinted forms and templates incorporated directly into MWTherapy. For more information, visit www.mwtherapy.com.

About Northeast Seminars:

NE Seminars is a premier provider of educational seminars and products in the field of rehabilitation. They provide the most comprehensive hands-on seminars. For more information, visit www.neseminars.com.

About The American Physical Therapy Association:

The American Physical Therapy Association (APTA) is a national professional organization representing more than 66,000 members. Its goal is to foster advancements in physical therapy practice, research, and education. For more information visit www.apta.org (National) and www.aptaofma.org (Massachusetts Chapter)
